SYNTHETIC-001 / Drawing register and verification notes

Survey documentation. Each drawing is evidence-bound and requires authorised technical review.

Recorded item	Finding / verification status	Source evidence
SV-002 | Site layout	1 sheet(s) | Measured records + verification schedule	4 recorded findings; sources linked in geometry.json
SV-003 | Shelter, equipment and cable routes	Not generated - supporting information missing	No geometry or connections assumed
SV-004 | Tower elevation, sections and platforms	Not generated - supporting information missing	No geometry or connections assumed
SV-005 | Antenna levels and sectors	1 sheet(s) | Evidence schedule only / Not to Scale	1 recorded findings; sources linked in geometry.json
SV-006 | Equipment schedule and mounting records	1 sheet(s) | Evidence schedule only / Not to Scale	1 recorded findings; sources linked in geometry.json
SV-007 | Enlarged mounting connections	Not generated - supporting information missing	No geometry or connections assumed
SV-008 | Power single-line records	Not generated - supporting information missing	No geometry or connections assumed
SV-009 | Rectifier and MDB distribution	Not generated - supporting information missing	No geometry or connections assumed
SV-010 | Roxtec and hatchplate arrangements	Not generated - supporting information missing	No geometry or connections assumed
SV-011 | Grounding arrangement	1 sheet(s) | Evidence schedule only / Not to Scale	1 recorded findings; sources linked in geometry.json

Recorded item	Finding / verification status	Source evidence
Design basis	No structural/electrical design performed. No governing design code or load combinations claimed.	A design basis and separate calculations are needed for engineering design.
Survey origin	Survey SYNTHETIC-ONLY | 2026-10-21	1 linked evidence references
Drawing symbols	isurvix-generic-symbols-1	Generic measured envelopes; Typical - verify against site.
Verification	6 missing sheet categories; 0 warnings	Review missing information and conflicts before release.

Evidence record only. No structural capacity, electrical safety or code compliance assessment.

Unknown dimensions and concealed connections have not been inferred. Review sources before use.

NORTH: not established unless recorded in the source.

Use the stated scale only. Do not scale evidence schedules.

Revision 001 | 2026-10-21 | Initial / updated review issue

Previous output revisions remain preserved in the survey history.
